Heretofore the United States government has not collected accurate statistics of its export trade with Canada. This defect is to be remedied at once. A REPLY TO AN IMPORTANT QUESTION

Which is the best and cheapest Dry Goods Store in Town? is the question now frequently asked by the Settlers, who have recently arrived in this district. In answer to this important question, I would respectfully but emphatically reply, the

MANCHESTER HOUSE.

Dealing as I do almost exclusively in Dry Goods, I have always on hand a larger and better assorted stock than any house in Town. Prices too are cut so fine, that it is frequently remarked by those who seek quotations "Why you are selling as cheap as they do down east, and in fact in some cases cheaper."

Many of the lines have been personally selected in the best English Markets.

GENERAL NEWS.

The conservative club of Montreal gave a big reception to Ouimet and premier Taillon on the 19th.

The Grand Trunk railway is already arranging for the World's Fair. It is having 200 specials for Chicago traffic. They are all Pullmans of the latest and most substantial style of construction, each costing about \$20,000.

Final official statistics of the cholera epidemic in Russia have just been issued. According to these figures there have been 130,417 deaths from European and 135,433 death from Asiatic cholera since the outbreak of the disease in the empire, making a total of 265,760 deaths.

On the 18th fire was discovered in the large cotton storage warehouse of David S. Arnott on the river front between 27th and 28th streets, Brooklyn. At ten o'clock while the fire was still burning fiercely the walls fell, burying twelve firemen, all of them were taken out alive, but several were seriously injured. The loss will be \$350,000.

Mrs. W. E. Gladstone, the wife of the British Premier, owns about three acres of land near Niagara Falls View Station. Parties are looking towards the purchase of this pretty sight and Mrs. Gladstone has been communicated with in regard to its sale. The plot is a present made to her by Mr. Gladstone about the time the park was opened. Mrs. Gladstone is on the Niagara list as a voter for mayor, councillors and school trustees.

The police of Paris have been making a wholesale descent in search of documents and other evidence for use in the prosecution of the Panama canal directors and others accused. The police visited the premises of the Panama canal company and also the premises of M. Thierre, of the firm of Thierre & Co., and those of his partner, M. Propper, who had joined with M. Thierre in refusing to enter into any particulars about the twenty-six cheque to bearer which the company had given to Baron Reinach in return for a cheque of 3,300,475 francs, drawn by the Panama company. These cheques were believed to be the key to the mystery of corruption and fraud. The police searched also the residence of M. Herr, who is alleged to be deeply implicated in the Panama schemes of Reinach and who with Reinach shortly before his death. As yet no warrant has been issued for the arrest of Ferdinand de Lesseps. The prosecution of M. Charles de Lesseps, Fontane and San Leroy will be entirely distinct from the others. An enormous quantity of documents have been seized. So great was the number that fourteen vans were required to transport them. Evening papers assert that four arrests are imminent. It is reported that the government will ask the chamber of deputies to authorize the prosecution of a number of its members.

EDMONTON BRICK COMPANY.

Have purchased their Brick Machinery to be shipped at once, the machinery is of the latest improved make and will turn out the finest kind of pressed brick, the brick will be considerably larger in size than the usual brick so the purchaser may count on the saving of one thousand in every ten, also less time and labor required. The price will be \$10.00 per thousand delivered inside the city limits in large quantities. We will have brick ready for sale about the 1st of May next. Any person requiring brick early it would be to their advantage to give their orders as soon as possible. We guarantee our brick 1st class and to fill all orders after May 1st next.

MESSRS LITTLE & MALONEY, PROPRIETORS.

BRICK! BRICK! YES BRICK.

Having attained the reputation of making the best brick in the Territories I will make it a point to continue to lead in that line; while thanking the building community of Edmonton and vicinity for their kind patronage in the past would invite their inspection of my work and prices in the future. Do not be deluded by parties who claim to make a pressed brick with a sand stock machine, or produce them in May in this country; it cannot be done. Pressed brick sell in the cities of Canada and the Eastern states for \$20.00 and upward per thousand and can't be sold or made here for any \$10.00. I set up no claim to such liberality, but can produce a good brick in July for \$5.00; August, \$7.00, September, \$8.00, and in large quantities. Parties requiring brick late or early in the season will find it to their advantage to examine what they are buying, before placing their orders. W. HUMBERTSTONE.

SCOTLAND FOR EVER.

Nothing galls the natural pride of the true blue Scot more than to leave Scotland overlooked. A striking instance of this feeling occurred at the battle of Trafalgar. Two Scotchmen, mess-mates and bosom cronies, happened so stationed near each other when the now celebrated signal was given from Admiral Nelson's ship: "England expects every one to do his duty." "Not a word about poor Scotland," dolefully remarked Donald. His friend cocked his eye, and turning on his companion said, "Mac Donald, Scotland kens weel enough that no son o' hers needs to be tell't to do his duty, that is just a hint to the Engliabers."

Advice from Salvador, state that a plot to kill President Ezota was discovered a few days ago. The plot was formed by Salvador exiles at Guatemala. The president was invited to a banquet at Salvador, at which an Italian, hired to assassinate him, had been engaged to serve as waiter. After all the guests had taken their places at the table, a body of police entered and arrested the Italian. The prisoner confessed that he was a member of the Guatemala secret service and that he had been hired for \$5,000 to kill the president. He gave the names of many persons in Salvador and Guatemala who were in the plot. Many arrests have been made in Salvador and the extradition of several Salvador exiles has been requested of the Guatemala government. The discovery of the plot has increased the popularity of the president.

NORTHWEST ASSEMBLY.

RESINA, December 17th.

The bills regarding cemeteries and regarding dentistry were read a third time.

The bill regarding the assessment of railways was considered in committee of the whole.

Betta moved that section houses, dining-halls and elevators be not exempt.

Haultain moved in amendment that station and freight sheds be also taxed.

In the discussion which followed, Lineham said it would be time enough to exempt stations when they were built. Calgary had been promised a station for five years past, but had not yet got even a lean to.

The chairman called for the yeas on Haultain's amendment and fifteen members stood up. This decided the point and the yeas were not called.

The railway men had been lobbying for exemption for two days and where somewhat disappointed at the result.

McKay was allowed to bring in a bill to exempt from taxation the right of way station grounds and superstructure of the Manitoba Northwestern for 20 years, provided 150 miles of new road was constructed in five years. This was agreed to in committee on the assurance of the members from the intended constituencies that the concession would be satisfactory to the people on the terms mentioned. McKay asked for the third reading at once, but this was refused.

Davidson's bill to incorporate the veterinary profession was considered in committee and held for further amendment.

McKay's bill to incorporate the Bishop of the Apostolic Vicariate of Saskatchewan was passed through committee.

Cauley introduced a bill to give Malcolm McKenzie a certain status as a student-at-law.

Cauley's amendments to the liquor ordinances were considered in committee.

Dill moved amendments to raise the quantity allowed to be sold under wholesale license.

Oliver said that the selling of small quantities under wholesale license as at present was the greatest evil of the traffic as far as his observation extended.

Cauley said that this was not the fact in Calgary. The object of allowing small quantities to be sold wholesale was that people who desired to keep a small quantity of liquor in their houses could procure it without having to go to hotels.

Dill's amendment was defeated by 10 to 9.

House adjourned until Monday.

SUPREME COURT.

Fraser & Co. vs. James Martin and A. B. Baird.—This was an action to set aside as being fraudulent the transfer of James Martin to his wife of his house and lots near Norris & Carey's store. The defendant Mrs. Martin claimed that the transfer was for a loan of \$800 to James Martin notwithstanding the fact that the transfer only named \$75 and was made a few days prior to James Martin leaving Edmonton. Several charges of fraud were made by the plaintiffs. Judgment reserved. S. S. Taylor, for plaintiffs and A. B. Baird; N. D. Beck, for defendant, Mrs. Martin.

It is stated there are 6000 intoxicants known to the American customs officials and that nearly every species of foreign emigrant has some special kind of drink. Hardly any of them are strictly temperate.

An inquest into the death of George Randall, who was stabbed to death by Henry Vrughan at Melita, Manitoba, was held on the 14th. Vaughan was acquitted, the coroner's jury giving a verdict of justifiable homicide.

The Winnipeg government crop bulletin just issued, gives the figures of the wheat yield at 14,000,000 bushels. The opinion is in concordance with that of members of the Grain exchange. The most conservative estimates of the amount of wheat out of the farmers' hands is 75 per cent.

Mr. Duncan McCormick, Q. C., of Montreal, is going to New York on behalf of four Chinamen, now in Montreal on their return from China, and who wish to return to their old homes. They have been unable to get across the boundary, though they are in possession of their passports, to which their photographs are attached.

The steamer Australia arrived at San Francisco from Honolulu bringing the following advices: The legislature has appropriated \$4,000 for the tour of Princess Kaiulani and her heirs apparent through Europe and the United States and \$12,000 to send the Hawaiian band to the World's Fair. News has reached Honolulu of the shelling of seven villages on Solomon Islands by the British warship Rapid for the killing of white traders.

Some Swiss papers relate that a sportsman recently succeeded in capturing the Savoy Alps an eagle's nest, after killing the mother bird. The nest, which was large enough to hold several persons, was made of thick branches, covered with straw and rubbish, and in it he found, besides a young eagle, the following remains of a feast: Fresh and stale meat, a recently killed hare, 27 chamois feet, 4 pigeons' feet, 30 pheasants' feet, 3 chickens' feet, 11 chickens' heads, 18 heads of grouse and other wild birds, and remain of snakes, squirrels, rabbits, marmots and other game.

The decision of the North Atlantic Steamship Association not to carry passengers to American ports will divert a tremendous stream of immigration to Canada. During the winter immigrants will all be landed at Halifax. A great many of these will, doubtless, attempt to cross the American frontier by rail, so that unless the United States authorities exercise the most rigid precautions, these immigrants will get there all the same, while Canadian steamship lines and railways will enjoy the revenue from transportation. The Halifax authorities have received from the Dominion Government the requisite machinery for fumigating immigrants and their baggage, and as this is a mere matter of form, the immigrants will be able to proceed within a few hours of their landing. Even now incoming steamers are bringing much larger numbers of immigrants than usual at this season of the year.
